INSTRUCTIONS TO INDIVIDUAL

Purpose: The Counseling Enhancement Tool (CET) -Leader was designed to aid leaders in fostering an open dialogue between themselves and their subordinates regarding the Soldier's developmental progress. The tool is not for evaluative decisions, but to maximize existing opportunities for leaders and their Soldiers to share observations, discuss expectations, and develop collaborative plans to increase goal attainment.

General overview: The CET provides seven topic areas, gleaned from doctrine and research, relevant to all junior enlisted Soldiers. These topics should be considered a minimum for developmental counseling, rather than an exhaustive list of potential topics. There may be other areas a leader and Soldier need to discuss regarding development and these should be added into the discussion. CET-Leader is designed to prepare junior enlisted leaders for performance counseling by engaging in assessment exercises.

Procedure:

PART I - VII: The leader completes each sub-section for the seven CRT topic areas.

- **Sub-section A.** *Sustain or Developmental Need.* The leader rates each item that best describes their assessment of the Soldier's performance over the past rating period.
- **Sub-section B.** *Observations*. The leader notes any specific observations of the Soldier's performance since the last counseling session that support the assessment of the areas indicated as either a *SUSTAIN* or a *DEVELOPMENTAL NEED*.
- **Sub-section C.** *Expectations*. The leader asks the Soldier what percentage of time they believe they met expectations in this specific area and discusses any discrepancies with their assessment.
- **Sub-section D.** *Goal.* The notes any goals the Soldier has selected and lists ways they can help the Soldier improve or achieve this goal.

PART VIII: The leader helps the Soldier select up to three specific, measurable, achievable, realistic, time-based (SMART) goals they would like to discuss. See the table below for examples or reference FM 6-22. These goals are not meant to replace DA Form 7906 (*Individual Development Plan*) but to support milestones to achieve the identified long-term goals. These goals can also be used to increase the Soldier's proficiency within PARTS I – VII.

	Key Question	Example	
Specific	pecific What specifically do you want to achieve? What specifically do you want to achieve?		
Measurable	How will you know if you've reached your goal?	When I leave the Army, I'd like to get my degree in aviation or aerospace engineering.	
Attainable	What resources are needed?	I would need to apply to Air Defense Artillery School.	
Realistic	Is the goal reasonable?	I have a good head for numbers. Aerospace is a big industry where I live.	
Time-based	When will each of the steps be completed without kicking the can down the road?	In the next week, I'd like to do some research on what training programs are available.
